

# Michigan: Professional Growth Goal Form

Evaluator: Dennis White

Practitioner: ELIZABETH LYNN

---

Goal Area:

Domain 2b: Establishing a Culture For Learning

Domain 3d: Using Assessment in Instruction

Goal Statement:

2b: I will participate with other 7th grade teachers in the incentive stamping plan for all of my students, including my 6th and 8th grade students

3d: I will use a written formative assessment at least once a week in each class and track the results.

Strategies, Activities, Timeline:

2b: Students leave their planners on their desk, open to the current day. If they are using the targeted behavior (completing the w.u., have materials, etc), they receive a stamp. These stamps can be redeemed for an auction held periodically. Because I have 6th and 8th grade students, I will give anyone with a certain number of stamps a treat on Friday.

3d: At least once a week, students will complete a 4 point series of problems, or single problem worth 4 points that will be recorded and tracked over time.

Evidence of Completion of Goal:

2b: Good behavior choices will be reinforced with earning a positive reward. Students will record when they have earned enough points for a treat on their team clipboard.

3d: Evidence of (at least) weekly scores will show overall understanding of material and allow for differentiation and/or reteaching. Lesson plans will include the formative assessment used and when.

Administrative Support Needed:
